Product Description

The Hi-Vac is an affordable, easy-to-use test system for nondestructive quality control testing of geomembrane welded seams and patches.

Product Spec

- Available in two sizes: 22" and 8"
- Large viewing area due to the Hi-Vac's exclusive "half-tube" design
- "Quick-disconnect" air fittings for easy assembly and disassembly
- "Quick-release" air valve for faster testing of long seams
- Sturdy, molded case (shown above) protects viewing area from scratches during shipping and storage
- Able to handle any vacuum testing job from small repair welds to full seam welds.
- Delivery includes: Hi-Vac tester, vacuum gauge, 25" of vacuum hose, shipping/storage case (optional) and a 115V or 230V vacuum pump (optional)
